Shoot, sorry, totally missed that. I'll enter it into our system.

Mark, should I send this out via GovDelivery too? I'm thinking yes.

-Charles

Subject: FW: NOAA press release

Hi Jayne,

The press releases on our website have all been entered into a database, then get auto-published to the Web page, so we can't simply link to external ones. Typically we get a posting request from one of our press officers when a new press release has been issued.

We can enter this release into our system if it's a joint release, but typically there would be an EPA contact listed as well. Did one of our press officers work on this with NOAA?

Thanks - Charles
